

Certificate IV in Civil Construction Supervision

RII40715

Overview

The Certificate IV in Civil Construction Supervision is designed for those working in independent and self-managing roles related to civil construction. These may include; site foreman or supervisors, team leaders and contract administrators.

The Certificate IV in Civil Construction Supervision is a nationally recognised, competency based qualification. The Certificate IV consists of twelve units of competency based on the Resources and Infrastructure Industry Training Package (RII).

This qualification combines best practice theory with practical examples of workplace application.

Transformed's team of experienced facilitators have extensive on-the-job experience across a broad range of industries. They offer real world examples to demonstrate how the practical application of theory can deliver outstanding outcomes.

This qualification is delivered flexibly - offering learning with minimal impact on your valuable time. Learning pathways available for completing this qualification include traditional learning pathway, Recognition of Prior Learning (RPL) pathway, a coached/RPL pathway and a distance learning pathway.

Course Fees

Course Price: \$3,900 for RPL

\$4,860 for Distance/RPL Blend

Fees are GST exempt.

Learning Outcomes

This qualification is designed to meet the needs of civil construction supervisors, including selecting contractors, overseeing the work and its quality, and liaising with the client.

Program Duration

It is expected that participants in this program will complete their qualification within a twelve month period via distance learning and six months via RPL.

Please discuss course delivery options with a Transformed team member. Course delivery is mainly based on self paced study, however not all units are available via this route. Face to face delivery is available within organisations for groups of 8 or more.

Participant Profile

Certificate IV in Civil Construction Supervision is designed for those people who are working in independent and self-managing roles in civil construction. Roles may include:

- Site foreman or supervisors
- Team leaders
- Contract administrators

Program Pre-requisites

There are no pre-requisites for this program, however civil construction work experience is desirable.

Assessment

Participants are required to undertake a number of assessment activities, including:

- Lodgment of an up-to-date CV;
- Completion of a third party report;
- Various work-based assessment tasks; and
- Completion of written question and answers.

Assessment for the Certificate IV in Civil Construction Supervision is against the competency standards within the Resources and Infrastructure Industry Training Package (RII). Participants can expect to spend about 60 hours undertaking assessment tasks.

Recognition of Prior Learning

Assessment by portfolio and interview is available to those with workplace experience in civil construction roles. This approach requires the participant to furnish substantial evidence of administration and coordination experience along with a signed reference from a team leader or manager.
