

## Open Site Supervisor

The Open Site Supervisor course is based on four modules from the Advanced Diploma of Building and Construction Management. It is designed for supervisors requiring an Open Site Supervisor Licence or those wishing to undertake a supervisory role.

On successful completion of this course the delegate will receive an Open Site Supervisor Statement of Attainment which can be used to apply for an Open Site Supervisor Licence.

The course is suitable for those requiring open building site licences. This course combines best practice theory with practical examples of workplace application.

Transformed's team of experienced facilitators, coaches and assessors have extensive on-the-job experience across a broad range of industries. They offer real world examples to demonstrate how the practical application of theory can deliver outstanding outcomes.

### Learning Outcomes

This course is designed to meet the needs of building supervisors overseeing work and its quality and liaising with the client, in addition to obtain their Open Site Supervisor Licence.

### Structure

Transformed offers flexible training and assessment options which allow participants to fit in their training program around work and other commitments. Transformed offers two flexible learning pathways to enable participants to complete this qualification. They are:

1. Recognition of Prior Learning (RPL) Pathway – this pathway involves assessment only, assessing evidence of existing skills and knowledge against the competency standards.
2. Self-paced study – this pathway requires completion of four units and the associated assessment activities

The Open Site Supervisor course consists of four modules from the Advanced Diploma of Building and Construction (Management) (CPC60212):

CPCBC6001B	Apply building codes and standards to the construction process for large building projects
CPCBC6018A	Manage processes for complying with legal obligations of a building or construction contractor
CPCBC6014A	Apply structural principles to the construction of large, high rise and complex buildings
CPCBC6016A	Assess construction faults in large building projects

### Participant Profile

This course is designed to meet the needs of builders overseeing work and its quality and liaising with the client, in addition to obtain their Open Site Supervisor Licence.

This program is designed for Open Site Supervisors and trainee site supervisors.

## Duration

Self-paced study over a three (3) month period.

## Prerequisites

Whilst there are no formal pre-requisites for this program, experience in the building and construction industry as well as a basic knowledge of the BCA and other standards.

## Assessment

Participants are required to undertake a number of assessment activities, including:

- Self-assessment
- Completion of assessment tasks Assessment is against the competency standards within the Construction Training Package (CPC08).

Participants can expect to spend about 20 hours undertaking assessment tasks.

## Recognition of Prior Learning (RPL)

Assessment via interview and portfolio of evidence is available to participants with relevant workplace experience in an auditing environment. Transformed will provide participants seeking RPL with a detailed RPL kit to assist them in preparing their evidence for assessment.

## Where to Next

- Advanced Diploma of Building and Construction (Management)
- Articulation to University
