HOW IT WORKS.

- We work with you to develop new courses to meet your membership needs.
- You promote the course link on your member pages, CPD /certification pages, and through your email marketing.
- Your organisation receives an agreed commission (fixed amount or percentage of revenue) for ALL courses sold through your affiliate link.
- There is no cost to develop the courses if your organisation can provide 40+ enrolments and there are market opportunities beyond your membership base.
- We source the experts and develop new courses based on your priorities.
